Registration 2013-2014

Planning for Success!Welcome to that exciting time of year when you choose the courses you will take during the upcoming school year. This registration website is designed to help parent and students make important decisions about course selections and provide information to promote a successful high school experience. Our goal is to provide quality educational experience for all students at Knightdale High School.

Parents and students are encouraged to use all registration materials to plan a program of study that will promote success. We also encourage parents and students to review the WCPSS High School Planning Guide for important information regarding the planning and registration process. This guide can be found on the KHS or WCPSS websites. Guidance counselors and teachers are always available to assist you in making course selections that are appropriate for your child’s future. Contact your child’s guidance counselor or teacher if you need assistance.

Working together, parents, students, and the school can ensure that wise decisions are made concerning programs and courses for the upcoming school year.
